

ICICI Public Documentation AI Assistant

Complete Design Document

Project: RAG-based Documentation Assistant for ICICI Bank

Version: 1.0

Date: February 2026

Target Platform: Web (Next.js + Tailwind CSS)

Executive Summary

This document provides comprehensive design specifications for a web-based AI assistant that helps ICICI Bank customers resolve documentation-related problems through a RAG (Retrieval-Augmented Generation) chatbot. The design balances modern AI-first interactions with the trust and stability required in financial services, while avoiding generic AI aesthetics.

Core Design Philosophy:

- Refined minimalism with purposeful details
 - Warm neutrals with confident blue accents
 - Professional editorial aesthetic meets intelligent assistant
 - Citation-grounded answers with transparent source attribution
 - Mobile-first responsive design
-

1. Visual Design Language

1.1 Design Philosophy

The visual language balances modern AI-first interactions with the trust and stability required in financial services.

Core aesthetic direction: *Professional editorial meets intelligent assistant* – think Financial Times meets conversational AI, not corporate banking meets chatbot.

1.2 Color System

Primary Palette

CSS

```
/* Semantic brand colors (ICICI-inspired but neutral) */
--color-primary-50: #f0f7ff
--color-primary-100: #e0f0ff
--color-primary-200: #b8dfff
--color-primary-300: #7cc4ff
--color-primary-400: #36a7ff
--color-primary-500: #0a8cff /* Primary action color */
--color-primary-600: #0072db
--color-primary-700: #005bb3
--color-primary-800: #004a94
--color-primary-900: #003d7a

/* Neutral foundation (warm-tinted for approachability) */
--color-neutral-0: #ffffff
--color-neutral-50: #fafaf9
--color-neutral-100: #f5f5f4
--color-neutral-200: #e7e5e4
--color-neutral-300: #d6d3d1
--color-neutral-400: #a8a29e
--color-neutral-500: #78716c
--color-neutral-600: #57534e
--color-neutral-700: #44403c
--color-neutral-800: #292524
--color-neutral-900: #1c1917
--color-neutral-950: #0c0a09

/* Semantic colors */
--color-success-500: #22c55e
--color-warning-500: #f59e0b
--color-error-500: #ef4444
--color-info-500: #3b82f6
```

1.3 Typography Hierarchy

Font Stack:

- Display & Headers: **DM Sans** (refined geometric with personality)
- Body & Interface: **Outfit** (friendly, highly legible)
- Monospace: **JetBrains Mono** (citations/metadata)

Type Scale:

```
--text-xs: 0.75rem /* 12px - metadata */
--text-sm: 0.875rem /* 14px - secondary UI */
--text-base: 1rem /* 16px - body text */
--text-lg: 1.125rem /* 18px - emphasized body */
--text-xl: 1.25rem /* 20px - section headers */
--text-2xl: 1.5rem /* 24px - card titles */
--text-3xl: 1.875rem /* 30px - screen titles */
--text-4xl: 2.25rem /* 36px - hero text */
--text-5xl: 3rem /* 48px - landing hero */
```

1.4 Spacing Scale (8px base system)

CSS

```
--space-2: 0.5rem /* 8px */
--space-3: 0.75rem /* 12px */
--space-4: 1rem /* 16px */
--space-6: 1.5rem /* 24px */
--space-8: 2rem /* 32px */
--space-12: 3rem /* 48px */
--space-16: 4rem /* 64px */
--space-20: 5rem /* 80px */
```

1.5 Card & Elevation System

CSS

```

/* Standard Card */
.card {
  background: white / neutral-900 (dark);
  border: 1px solid neutral-200 / neutral-800;
  border-radius: 16px;
  padding: 24px;
  shadow: 0 4px 6px rgba(0,0,0,0.1);
}

/* Glass Card (overlays, panels) */
.card-glass {
  background: rgba(255,255,255,0.8) / rgba(28,25,23,0.8);
  backdrop-filter: blur(12px);
  border: 1px solid rgba(255,255,255,0.18);
  shadow: 0 20px 25px rgba(0,0,0,0.1);
}

/* Message Bubbles */
.message-user {
  background: primary-500;
  color: white;
  border-radius: 24px 24px 4px 24px; /* asymmetric */
}

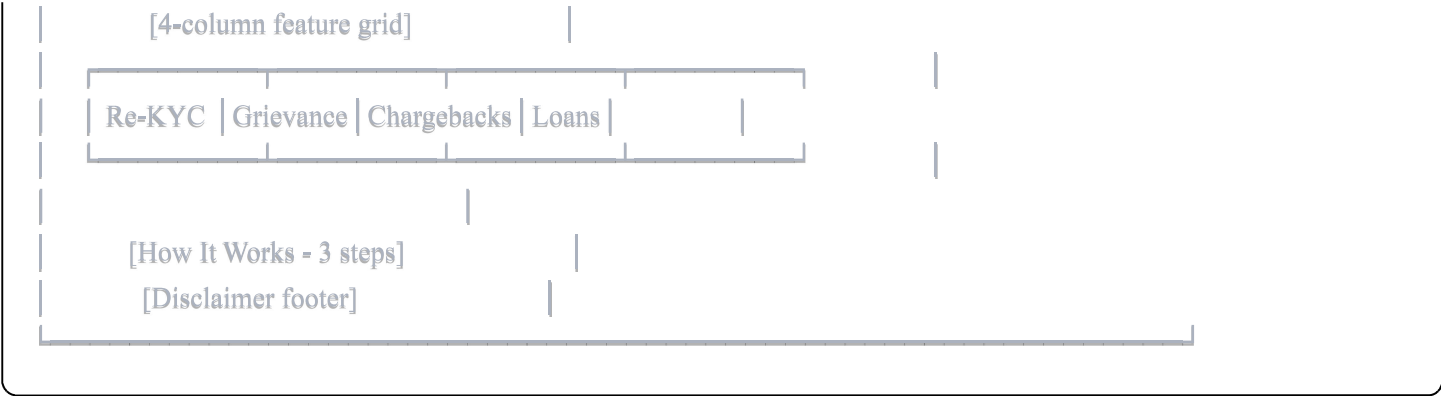

.message-assistant {
  background: neutral-100 / neutral-800;
  border-radius: 4px 24px 24px 24px; /* asymmetric */
}

```

2. Overall Layout Structure

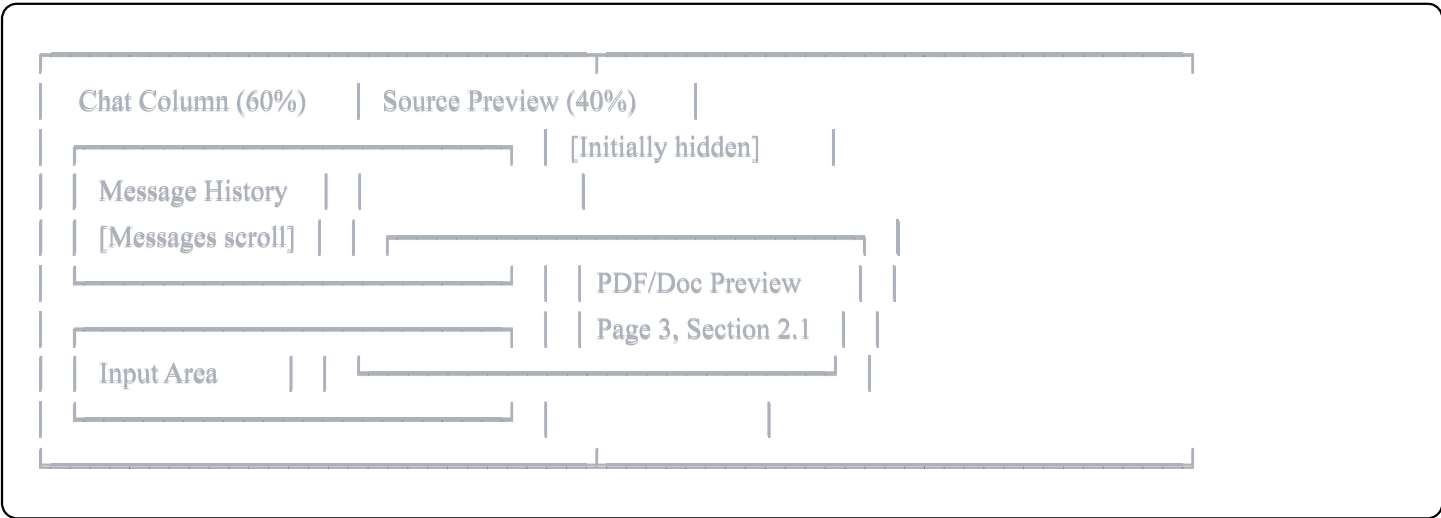

2.1 Landing Screen Layout

Header: Logo + "Documentation Assistant" + Theme	
[Hero Section]	
Get help with your ICICI Bank	
documentation needs	
[Start Chat Button - CTA]	

2.2 Main Chat Workspace Layout

Desktop (>1280px):

Mobile (<768px):

- Full-width chat
- Source preview as full-screen modal overlay

3. Core Screens

3.1 Landing Page

Components:

- Hero with gradient background (subtle mesh)
- Feature cards (4-grid: Re-KYC, Grievance, Chargebacks, Loans)
- How it works timeline (3 steps)
- Trust disclaimer box

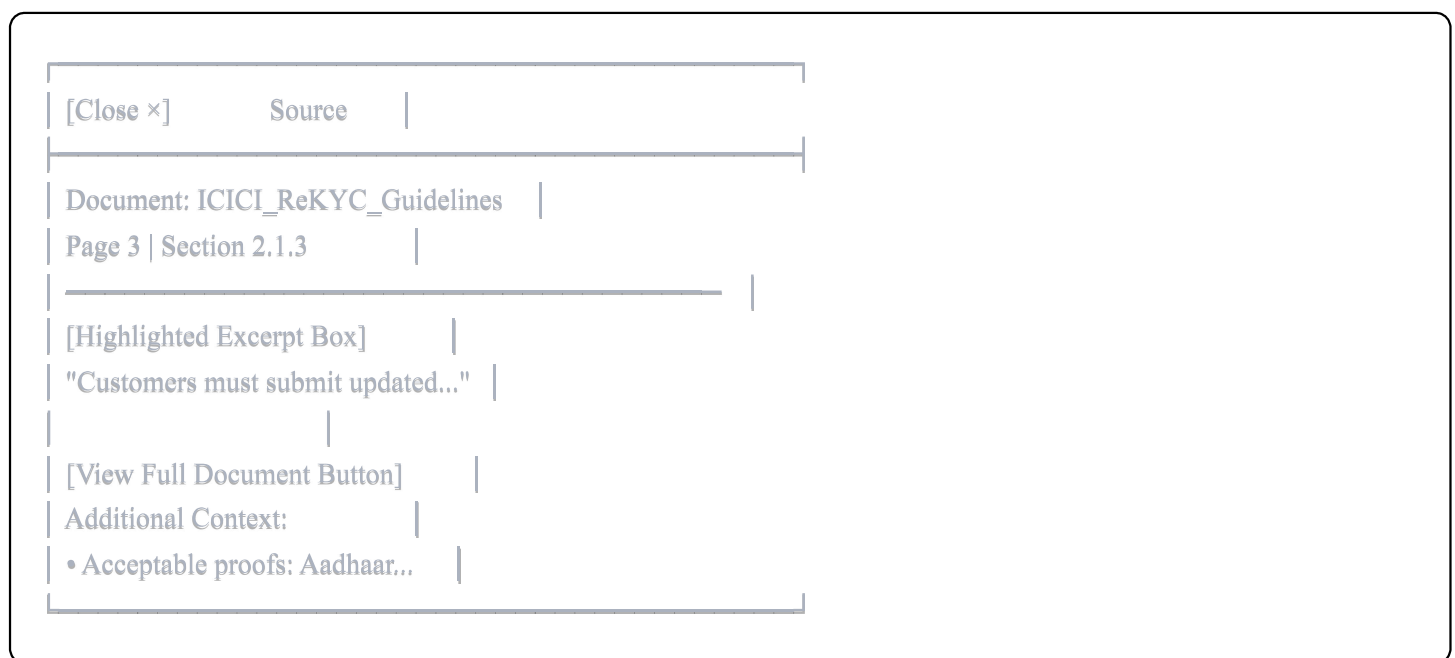

3.2 Main Assistant Screen

Components:

- Fixed header with logo and theme toggle
- Scrollable message container
- User and assistant message bubbles
- Step cards with citations
- Fixed input bar at bottom
- Conditional source panel (desktop) or modal (mobile)

3.3 Citation & Source Preview

Source Panel Layout:

3.4 No-Results / Error State

Shows when AI can't find relevant information:

- Info box explaining limitation
- Suggestions for what the assistant can help with
- Customer service contact details
- Example queries as suggestion chips

3.5 Loading / Streaming States

- Animated dots: ● ● ● (pulsing)
- Text: "Searching documentation..."
- Progressive text reveal during streaming

- Cursor blink at end of streamed content

4. Chat Interface Design

4.1 Message Bubbles

User Message:

jsx

```
<div className="message-user">
  <p>How do I complete my re-KYC?</p>
  <span className="timestamp">2:34 PM</span>
</div>
```

- Right-aligned
- Blue background (primary-500)
- White text
- Max-width: 448px

Assistant Message:

jsx

```
<div className="flex gap-3">
  <Avatar /> /* AI icon */
  <div className="message-assistant">
    <p>To complete your re-KYC, follow these steps:</p>
    <StepCard />
    <StepCard />
  </div>
</div>
```

- Left-aligned with avatar
- Neutral background
- Max-width: 768px

4.2 Step Cards

jsx

```

<div className="step-card">
  <div className="step-header">
    <span className="step-number">1</span>
    <h4>Submit PAN Card</h4>
  </div>
  <p className="step-content">
    Upload a clear copy of your PAN card...
  </p>
  <div className="citations">
    <CitationBadge label="Doc 2-B, p.7" />
    <CitationBadge label="ReKYC Guidelines" />
  </div>
</div>

```

Visual Style:

- White/dark card on neutral background
- Left blue accent border (4px, primary-400)
- Step number in circular badge
- Citations as pill-shaped badges below content

4.3 Citation Badges

```

jsx

<button className="citation-badge">
  <FileIcon />
  <span>Doc 2-B, p.7</span>
  <CheckIcon /> /* if verified */
</button>

```

Visual Treatment:

- Monospace font
- Primary-50 background
- Primary-700 text
- Rounded-full shape
- Hover: Darker background + shadow lift

5. Source Preview Experience

5.1 Display Modes

Mode 1: Text Excerpt (Primary)

- Document metadata header
- Highlighted excerpt in colored box
- Additional context bullets
- Action buttons (Download, View Full)

Mode 2: PDF Viewer (Optional)

- Embedded PDF with toolbar
- Page navigation
- Zoom controls

5.2 Document Metadata

Document: ICICI_ReKYC_Guidelines_2024.pdf

Category: KYC Compliance

Page: 3

Section: 2.1.3

Last Updated: January 2025

Confidence: ● High

5.3 Multi-Source Navigation

When multiple sources cited:

- Tab navigation at top
- Previous/Next buttons at bottom
- Current page indicator (e.g., "2 of 4")

6. Interactions & Micro-interactions

6.1 Message Send Animation

1. Input validation (instant)
2. Message fade-in from right (200ms)

3. Scale animation ($0.95 \rightarrow 1$, elastic easing)
4. Auto-scroll to new message
5. Typing indicator appears (400ms delay)

6.2 Streaming Text

- Character-by-character or chunk-by-chunk reveal
- Blinking cursor at end during streaming
- Cursor disappears when complete
- 20-50ms delay per chunk

6.3 Hover States

Button Hover:

- Background color shift
- Scale transform (1.05)
- Shadow lift
- 150ms transition

Card Hover:

- Shadow intensifies
- Slight lift (-2px translateY)
- Border color brightens

6.4 Citation Expand/Collapse

- Button icon rotates 180deg
- Content expands with height transition (300ms)
- Opacity fade-in ($0 \rightarrow 1$)
- Smooth easing

6.5 AI Activity Indicators

- Pulsing gradient in avatar
- Animated dots (sequential bounce)
- Shimmer effect in message background
- Progress bar for long operations

7. Component Structure

8. Responsive Design

Breakpoints

- Mobile: <768px
- Tablet: 768px - 1279px
- Desktop: ≥1280px

Mobile Adaptations

- Single column layout
- Full-screen modals for sources
- Larger touch targets (44x44px minimum)
- Sticky input at bottom
- Hamburger menu navigation

Desktop Features

- Side-by-side chat + source panel
 - Hover states fully utilized
 - Wider typography scale
 - Multi-column feature grids
-

9. Accessibility

Color Contrast

- Body text: 15:1 ratio
- UI elements: minimum 4.5:1
- WCAG AA compliant

Keyboard Navigation

- Tab order: Header → Content → Input → Send

- Focus indicators on all interactive elements
- ESC to close modals/panels
- Enter to send message

Screen Readers

- Semantic HTML (header, main, nav, footer)
- ARIA labels on icon buttons
- Live regions for streaming messages
- Status announcements for loading states

Error Messaging

- Role="alert" for errors
 - Clear, actionable error text
 - Retry buttons where appropriate
-

10. Design Tokens

Spacing Scale

CSS

```
--space-2: 8px  
--space-4: 16px  
--space-6: 24px  
--space-8: 32px  
--space-12: 48px  
--space-16: 64px
```

Typography Scale

CSS

```
--text-sm: 14px
--text-base: 16px
--text-lg: 18px
--text-xl: 20px
--text-2xl: 24px
--text-3xl: 30px
```

Border Radius

```
CSS

--radius-lg: 8px
--radius-xl: 12px
--radius-2xl: 16px
--radius-3xl: 24px
--radius-full: 9999px
```

Shadows

```
CSS

--shadow-sm: 0 1px 2px rgba(0,0,0,0.05)
--shadow-md: 0 4px 6px rgba(0,0,0,0.1)
--shadow-lg: 0 10px 15px rgba(0,0,0,0.1)
--shadow-xl: 0 20px 25px rgba(0,0,0,0.1)
```

Animations

```
CSS

--duration-fast: 150ms
--duration-normal: 200ms
--duration-medium: 300ms
--ease-out: cubic-bezier(0, 0, 0.2, 1)
```

11. Implementation Mapping

Next.js Structure

```
app/
├── layout.js    # Root layout, theme provider
```

```
|— page.js      # Landing page
|— chat/
|   |— page.js  # Chat interface
|   |— globals.css # Tailwind imports
```

components/

```
|— layout/
|   |— Header.js
|   |— ThemeProvider.js
|— landing/
|   |— HeroSection.js
|   |— FeatureGrid.js
|   |— HowItWorks.js
|— chat/
|   |— MessageList.js
|   |— UserMessage.js
|   |— AssistantMessage.js
|   |— StepCard.js
|   |— CitationBadge.js
|   |— ChatInput.js
|   |— SourcePanel.js
|— ui/
|   |— Button.js
|   |— Card.js
|   |— Modal.js
```

lib/

```
|— hooks/
|   |— useChat.js
|   |— useTheme.js
|— utils.js
```

Tailwind Organization

Custom Utilities:

CSS

```
@layer utilities {
  .container-app { @apply max-w-screen-xl mx-auto px-6; }
  .container-chat { @apply max-w-3xl mx-auto; }
  .btn-primary { @apply px-4 py-2 bg-primary-500 hover:bg-primary-600 ... }
  .message-user { @apply bg-primary-500 text-white rounded-3xl ... }
}
```

12. Trust & Compliance UI

Citation Emphasis

Visual Signals:

- Shield + checkmark icon for verified sources
- Monospace font for technical precision
- Prominent border (2px, not 1px)
- Primary blue color (trust association)
- "Official Source" label in excerpt boxes

Disclaimer Placement

1. **Landing Footer:** Helpful card format, not legal text block
2. **In-Chat:** Subtle reminder after first answer (dismissible)
3. **No-Results:** Integrated into error message with action buttons

Official Source Indicators

✓ Official ICICI Document

Updated: January 2025

Document ID: ICICI-KYC-2025-v3.2

Category: KYC Compliance

Trust Hierarchy:

- Highest: Shield + checkmark (official)
- High: Checkmark only (verified)
- Medium: Document icon (reference)
- Info: Info icon (context)

13. Future-Ready Design

Multi-Domain Support

- Domain selector in header

- Color-coded citations by domain
- Filter sources by domain
- Domain-specific themes

Language Selection

- Language toggle in header
- RTL layout support
- Transliteration for technical terms
- Font stack for non-Latin scripts

User Feedback

- Thumb up/down below messages
 - Feedback modal for detailed input
 - Toast confirmation
 - Analytics tracking
-

Design Principles Summary

Trust & Credibility:

- Professional, finance-appropriate visual language
- Clear citation emphasis
- Transparent disclaimers
- Official source verification

Modern AI Experience:

- Streaming responses
- Conversational bubbles
- Step-by-step breakdowns
- Inline source previews

Accessibility:

- WCAG AA compliant
- Full keyboard navigation

- Screen reader support
- Clear error states

Technical Excellence:

- Next.js App Router
- Tailwind utility-first
- Component-driven
- Mobile-first responsive
- Dark mode support

Distinctive Design:

- Custom font pairings (DM Sans + Outfit)
- Refined color palette (warm neutrals + blue)
- Editorial-inspired layouts
- Purposeful micro-interactions
- Avoids generic AI aesthetics
